

Laterals

Barack Ferrazzano hires experienced lawyers in all practice areas to serve existing clients as well as grow strategically. In hiring lateral attorneys, we look for smart, skilled attorneys with top credentials who bring their experience to better serve our existing and potential clients.

Laterals are offered an orientation training program to acquaint them with the firm's technology, policies and procedures. In addition, frequent informal group lunches are scheduled where new hires have opportunities to meet our other attorneys in small group settings.

To Contact Us

Our lateral hiring varies based on the needs of our practice groups. We are always considering applications from laterals and interested candidates should e-mail both their resume and their law school transcript to:
