PROGRAM SPECIFICS

Trying to navigate the constantly changing world of executive and director compensation is a challenge many community banks struggle with on a daily basis.

Whether your bank is publicly traded or privately held, your compensation plans and programs have been impacted by several years of changing tax laws, accounting rules and SEC governance and reporting mandates.

If you are confused or frustrated by the recent compensation provisions and limitations included in the American Recovery and Reinvestment Act (the Stimulus Package) signed into law on February 17, 2009, **YOU ARE NOT ALONE!**

Join us at this one day seminar to hear experts discussing:

- current trends and best practices in executive and board compensation,
- the regulatory climate and it's affects on both TARP and non-TARP recipients
- available funding mechanisms for compensation and executive benefit programs.
