

Attorneys

BFKN is a destination firm for elite lawyers who seek balance, a collegial culture, and the opportunity to define success on their own terms – while minimizing the bureaucracy that comes from practicing law in mega firms. Our attorneys share a passion for their clients' work and have the ability to cultivate relationships to develop them further. Our firm boasts transparency that allows for genuine collaboration by engaging our attorneys from *before* Day One through our thoughtful and intentional onboarding and integration process. This collaborative approach continues through our efforts to foster ongoing career development at each stage, including ensuring opportunities to develop core competencies by practice group, having easy access to our dedicated leadership team that can assist in creating individualized business development plans, and fostering continued growth through leadership roles.

For legal position-related inquiries, please contact Jodi M. Dalton, Director of Attorney Development & Recruiting.
